

Supplemental Financial Information For the Quarter Ended September 30, 2016

The Company's supplemental financial information and other data presented herein speaks only as of the date or period indicated (or as of the date posted, as the case may be), and the Company does not undertake any obligation, and disclaims any duty, to update any of this information. The Company's future financial performance is subject to various risks and uncertainties that could cause actual results to differ materially from expectations. The factors that could affect the Company's future financial results are discussed more fully in our reports filed with the SEC. Readers are advised to refer to these reports for additional information concerning the Company. Readers are also advised that the Company's historical performance may not be indicative of future results. In addition, the information contained herein does not constitute an offer to sell or a solicitation to buy any of the Company's securities.

CoreCivic, Inc.

Supplemental Financial Information For the Quarter Ended September 30, 2016

FFO and AFFO are widely accepted non-GAAP supplemental measures of REIT performance following the standards established by the National Association of Real Estate Investment Trusts (NAREIT). The Company believes that FFO and AFFO are important operating measures that supplement discussion and analysis of the Company's results of operations and are used to review and assess operating performance of the Company and its correctional facilities and their management teams. NAREIT defines FFO as net income computed in accordance with generally accepted accounting principles, excluding gains (or losses) from sales of property and extraordinary items, plus depreciation and amortization of real estate and impairment of depreciable real estate. Because the historical cost accounting convention used for real estate assets requires depreciation (except on land), this accounting presentation assumes that the value of real estate assets diminishes at a level rate over time. Because of the unique structure, design and use of the Company's correctional facilities, management believes that assessing performance of the Company's correctional facilities without the impact of depreciation or amortization is useful. The Company may make adjustments to FFO from time to time for certain other income and expenses that it considers non-recurring, infrequent or unusual, even though such items may require cash settlement, because such items do not reflect a necessary component of the ongoing operations of the Company. Even though expenses associated with mergers and acquisitions (M&A) may be recurring, the magnitude and timing fluctuate based on the timing and scope of M&A activity, and therefore, such expenses, which are not a necessary component of the ongoing operations of the Company, may not be comparable from period to period. Normalized FFO excludes the effects of such items. The Company calculates AFFO by adding to Normalized FFO non-cash expenses such as the amortization of deferred financing costs and stock-based compensation, and by subtracting from Normalized FFO recurring real estate expenditures that are capitalized and then amortized, but which are necessary to maintain a REIT's properties and its revenue stream. Some of these capital expenditures contain a discretionary element with respect to when they are incurred, while others may be more urgent. Therefore, these capital expenditures may fluctuate from quarter to quarter, depending on the nature of the expenditures required, seasonal factors such as weather, and budgetary conditions. Other companies may calculate FFO, Normalized FFO, and AFFO differently than the Company does, or adjust for other items, and therefore comparability may be limited. FFO, Normalized FFO, and AFFO and their corresponding per share measures are not measures of performance under GAAP, and should not be considered as an alternative to cash flows from operating activities, a measure of liquidity or an alternative to net income as indicators of the Company's operating performance or any other measure of performance derived in accordance with GAAP. This data should be read in conjunction with the Company's consolidated financial statements and related notes included in its filings with the Securities and Exchange Commission.

These amounts are also deducted from our calculation of Adjusted EBITDA, because we believe this presentation is more reflective of the cash flows associated with the facility's operations, and therefore cash available to service our debt and pay dividends to our shareholders.

ANALYSIS OF OUTSTANDING DEBT

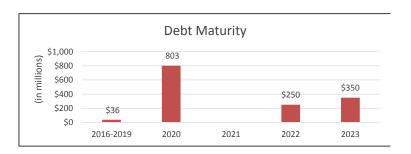

(Unaudited and amounts in thousands)

Flord Pate	Outstanding Balance 12/31/2015	Outstanding Balance 9/30/2016	Stated Interest Rate	Effective Interest Rate	Maturity Date	Callable/ Redeemable
Fixed Rate:						
\$350 Million Senior Notes	\$ 350,000	\$ 350,000	4.625%	4.80%	May 2023	Prior to February 1, 2023, redeemable at a "make-whole" redemption price, plus accrued and unpaid interest; thereafter the notes are redeemable at 100% of the aggregate principal amount plus accrued and unpaid interest.
\$325 Million Senior Notes	325,000	325,000	4.125%	4.38%	April 2020	Prior to January 1, 2020, redeemable at a "make-whole" redemption price, plus accrued and unpaid interest; thereafter the notes are redeemable at 100% of the aggregate principal amount plus accrued and unpaid interest.
\$250 Million Senior Notes	250,000	250,000	5.0%	5.19%	October 2022	Prior to July 15, 2022, redeemable at a "make-whole" redemption price, plus accrued and unpaid interest; thereafter the notes are redeemable at 100% of the aggregate principal amount plus accrued and unpaid interest.
Total Fixed Rate Debt	925,000	925,000				
Floating Rate:						
Revolving Credit Facility	439,000	418,000	2.48%	2.73% 2)	July 2020	
Term Loan Total Floating Rate Debt	100,000 539,000	96,250 514,250	2.06%	2.18%	July 2020	
Grand Total Debt	\$ 1,464,000	\$ 1,439,250	3.75%	3.96%	4.80	4)

¹⁾ Includes amortization of debt issuance costs.

Debt Maturity Schedule at September 30, 2016:

<u>Year</u>	Total Debt Maturing	% of Debt Maturing	% of Debt Maturing
2016	\$ 1,250	0.09%	0.09%
2017	10,000	0.69%	0.78%
2018	10,000	0.69%	1.48%
2019	15,000	1.04%	2.52%
2020	803,000	55.79%	58.31%
Thereafter	600,000	41.69%	100.00%
	\$ 1,439,250	100.00%	

²⁾ On July 22, 2015, the Company amended and restated the \$900.0 million revolving credit facility with principally the same terms, with the exception of a reduction by 0.25% in the applicable margin of base rate and LIBOR rate loans and a new five-year-term, among other changes. The \$900.0 million revolving credit facility now matures in July 2020. The Company also has \$10.3 million of letters of credit outstanding under a sub-facility reducing the available capacity under the revolving credit facility to \$471.7 million as of September 30, 2016. Based on the Company's current leverage ratio, the revolving credit facility bears interest at LIBOR plus a margin of 1.50%.

³⁾ On October 6, 2015, the Company obtained \$100.0 million under an Incremental Term Loan ("Term Loan") under the "accordion" feature of the revolving credit facility. As of April 1, 2016, interest rates under the Term Loan are the same as the interest rates under the revolving credit facility. The Term Loan has a maturity of July 2020, with scheduled principal payments in years 2016 through 2020.

⁴⁾ Represents the weighted average debt maturity in years.

FACILITY PORTFOLIO

Compensated

	Year						Remaining	Occupancy % for
	Constructed/Acquired		Design		Facility Type		Renewal Options	the Quarter ended
Facility Name	(A)	Primary Customer	Capacity (B)	Security Level	(C)	Term	(D)	9/30/16

- (A) The year constructed/acquired represents the initial date of acquisition or completion of construction of the facility, as well as significant additions to the facility that occurred at a later date.
- (B) Design capacity measures the number of beds, and accordingly, the number of offenders each facility is designed to accommodate. Facilities housing detainees on a short term basis may exceed the original intended design capacity due to the lower level of services required by detainees in custody for a brief period. From time to time, we may evaluate the design capacity of our facilities based on the customers using the facilities, and the ability to reconfigure space with minimal capital outlays. We believe design capacity is an appropriate measure for evaluating prison operations, because the revenue generated by each facility is based on a per diem or monthly rate per immate housed at the facility paid by the corresponding contracting governmental entity.
- (C) We manage numerous facilities that have more than a single function (i.e., housing both long-term sentenced adult prisoners and pre-trial detainees). The primary functional categories into which facility types are identified was determined by the relative size of prisoner populations in a particular facility on September 30, 2016. If, for example, a 1,000-bed facility housed 900 adult prisoners with sentences in excess of one year and 100 pre-trial detainees, the primary functional category to which it would be assigned would be that of correction facilities and not detention facilities. It should be understood that the primary functional category to which multi-user facilities are assigned may change from time to time.
- (D) Remaining renewal options represents the number of renewal options, if applicable, and the remaining term of each option renewal.
- (E) Pursuant to the terms of a contract awarded by the state of Arizona in September 2012, the state of Arizona has an option to purchase the Red Rock facility at any time during the term of the contract, including extension options, based on an amortization schedule starting with the fair market value and decreasing evenly to zero over the twenty year term.
- (F) Based on a decline in offender populations within the state of Colorado and available capacity at other facilities we own in Colorado, we idled the Kit Carson Correctional Center during the third quarter of 2016. Immate populations from this facility enter transferred to the remaining two company-owned facilities that we operate for the Colorado Department of Corrections, the Bent County Correctional Facility and the Crowley County Correctional Facility. We have begun to market the facility to provide correctional or detention solutions for other customers.
- (G) The facility is subject to a purchase option held by the Georgia Department of Corrections, or GDOC, which grants the GDOC the right to purchase the facility for the lesser of the facility's depreciated book value, as defined, or fair market value at any time during the term of the contract between us and the GDOC.
- (H) The facility, formerly known as the Otter Creek Correctional Center, is subject to a deed of conveyance with the city of Wheelwright, KY which includes provisions that would allow assumption of ownership by the city of Wheelwright under the following occurrences: (1) we cease to operate the facility for more than two years, (2) our failure to maintain at least one employee for a period of sixty consecutive days, or (3) a conversion to a maximum security facility based upon classification by the Kentucky Corrections Cabinet. In December 2013, we entered into an agreement with the city of Wheelwright that extends the reversion by up to 30 months in exchange for \$20,000 per month or until we resume operations, as defined in the agreement.
- (Ī) The facility is subject to a purchase option held by the Tallahatchie County Correctional Authority which grants Tallahatchie County Correctional Authority the right to purchase the facility at any time during the contract at a price generally equal to the cost of the premises less an allowance for amortization originally over a 20 year period. The amortization period was extended through 2050 in connection with an expansion completed during the fourth quarter of 2007.
- (J) The State of Montana has an option to purchase the facility generally at any time during the term of the contract with us at fair market value less the sum of a pre-determined portion of per-diem payments made to us by the
- (K) On July 29, 2016, the BOP elected not to renew its contract at the facility. We prepared to idle the facility upon expiration of the contract on October 30, 2016. On October 31, 2016, we announced a new contract award to house up to 1,116 ICE detainees at the facility. The contract contains an initial term of five years, with renewal options upon mutual agreement.
- (L) The state of Ohio has the irrevocable right to repurchase the facility before we may resell the facility to a third party, or if we become insolvent or are unable to meet our obligations under the management contract with the state of Ohio, at a price generally equal to the fair market value, as defined in the Real Estate Purchase Agreement.
- (M) The facility is subject to a purchase option held by the Oklahoma Department of Corrections, or ODC, which grants the ODC the right to purchase the facility at its fair market value at any time.
- (N) The state of Tennessee has the option to purchase the facility in the event of our bankruptcy, or upon an operational or financial breach, as defined, at a price equal to the book value, as defined.
- (O) The District of Columbia has the right to purchase the facility at any time during the term of the contract at a price generally equal to the present value of the remaining lease payments for the premises. Upon expiration of the lease in the first quarter of 2017, ownership of the facility automatically reverts to the District of Columbia. We have been provided notice that the District does not plan to renew the contract upon its expiration in the first quarter of 2017.
